Re: Virginia Graeme Baker Pool and Spa Safety Act
File SP-4900

The recent Virginia Graeme Baker Pool and Spa Safety Act of December 19, 2008, requires each swimming pool or spa drain cover to comply with standard ASME A112.19.8-2007, and as such, the Consumer Product Safety Commission (CPSC) now also requires these products to include and show the mark "VGB 2008" when they've been tested and certified as compliant to this standard.

Please know that this additional marking requirement "VGB 2008" officially takes effect on November 12, 2008. Please make a note of this while evaluating the products for marking requirements.

Please advise with any comments or questions you may have. Thank you again for your support of this act.

Best Regards,

Charles Gross
